In all cases where the route is left to our judgment, we will select the best we know, but entirely at the risk of the buyer. Should fulfillment of any order or contract be prevented or delayed by the act of God, war, blockade, revolution, prohibition of exports or imports, riots, strikes, lockouts, fire loss and/or detention at sea or any other contingency beyond our control, we shall not be responsible for any loss and/or damage thereby.

3 - WHITE COLUMN STOCKS - 3

Tailored to the Cut Flower Grower's Specifications

STOCK COLUMN NON-BRANCHING WHITE GIANT (Denholm)

WHITE GIANT seems to completely fill the cut flower growers' request for a new and outstanding white non-branching stock. When planted outside in California, it comes into bloom about a week to ten days earlier than any of the existing standard varieties, being only a few days behind our second new variety, *Avalanche*.

WHITE GIANT has lots of vigor and a strong non-branching wiry stem growing about six inches taller than the regular strains of White Column Stock. The extremely large, extra double individual florets are of the purest glistening white, being beautifully spaced on a tremendous flower spike.

WHITE GIANT is the most outstanding improvement made in White Column Stocks during the last ten years, and we predict a great future for this variety, both for outside planting and sowing under glass.

Price per oz. \$4.25

Per lb. \$50.00

STOCK COLUMN NON-BRANCHING AVALANCHE (Denholm)

AVALANCHE is definitely the earliest of all White Column Stocks under our growing conditions, and we are sure that this would hold true under most outside growing conditions. It is fully ten days to two weeks earlier than the regular strain of *Gardenia*, White No. 16 and White Pillar. It is also a few days earlier than our new White Giant.

AVALANCHE has plenty of height, being at least six inches taller than standard varieties. It is about the same height as White Giant and *Gardenia Improved*. The flower spike is particularly long and massive with the very double individual florets being close together to form the perfect spike. Flowers are paper white of great substance. This stock is different and in many instances may be the best of the three.

Price per oz. \$4.25

Per lb. \$50.00

STOCK COLUMN NON-BRANCHING GARDENIA IMPROVED (Denholm)

GARDENIA IMPROVED is 10 days earlier than the regular well-known strain of *Gardenia* and grows at least 6 inches taller. It has a much larger individual floret and the florets themselves are much better spaced on the stem.

GARDENIA IMPROVED will please all who grow it, but it is especially recommended for those who have been using the regular strain of *Gardenia*. It is particularly suited as an outside Winter variety as the flower spike is fairly loose, thereby allowing the individual florets to dry out faster under wet conditions.

Per lb. \$50.00

SPRING FLOWERING SPENCERS

New Cuthbertson Strain

THIS NEW DEVELOPMENT IN SWEET PEAS HAS EXTREMELY VIGOROUS GROWTH, LARGE WELL WAVED FLOWERS WHICH ARE CARRIED ON VERY LONG STIFF STEMS. THIS TYPE FLOWERS ABOUT TEN DAYS LATER THAN THE REGULAR EARLY SPENCERS AND TEN DAYS BEFORE THE LATE OR SUMMER SPENCERS. FOR GREENHOUSE SOWING FROM OCTOBER TO FEBRUARY THIS STRAIN IS SUPERIOR TO THE EARLY SPENCERS IN THAT THEY ARE USUALLY LONGER STEMMED AND CONTINUE TO FLOWER FARTHER INTO THE SPRING. THEY ARE ALSO IDEALLY SUITED FOR OUTSIDE PLANTING IN ANY PART OF THE COUNTRY, AND IN VIEW OF THE FACT THAT THEY WILL FLOWER BEFORE THE LATE SPENCERS, THEY ARE PARTICULARLY ADAPTED TO SECTIONS WHERE EARLY HOT WEATHER IS A LIMITING FACTOR TO GROWING GOOD LONG STEMMED SWEET PEAS.
